newsteotransport

Stand-alone wireless solutions for temperature control

Controlled temperature transport ⊘

SMS or e-mail on threshold alerts ⊘

Real-time temperature monitoring ⊘

ANALYZE   **MEASURE**   **ALERT**

Newsteo provides a wide range of temperature data loggers for controlled temperature transport.

Some products (fragile goods, perishable merchandise) have to be transported under controlled temperature conditions to prevent any risk of damage. Newsteo products enable to constantly monitor and manage a real-time alert system in case of over treshold.

M1
*Multi use
LCD display
EN12830*

S1
*Single use
6, 15 or 90 days
EN12830*

⊙ Inside parcels

USB loggers **with automatic generation of PDF report,** EN12830 and GDP/BDP compliant

LOGGERS

LOG36
*Aluminium casing
IP65 protected
[-40°C ... +85°C]
EN12830*

LOM16
*Plastic casing
IP67 protected
[-40°C ... +70°C]
EN12830*

GATEWAYS

GAT33
*3G gateway
12V Power Supply
Car*

COL92
*Ethernet gateway
AC Power Supply*

◉ REAL-TIME MONITORING & TRACEABILITY

## ◉ DATA LOGGERS or TEMPERATURE PROBES
measure trailer temperature and transmit it by radio to the gateway

◉ THE GATEWAY
transmits data by 3G cellular network to the cloud and alerts you in real-time if there is any problem :
SMS + e-mail + optional buzzer **OR**
is placed in the warehouse and automatically collects data saved by the data loggers when the truck comes back from its round.

DataLoggers

OR

Ethernet gateway

Automatic PDF reports
