ALERT

TEMPERATURE

HUMIDITY

SHOCKS

The temperature and humidity levels are extremely important data to ensure the quality and preservation of cosmetics.

Newsteo solutions enable to continuously monitor these parameters and triggering immediate alerts by email or SMS when threshold is exceeded during the production, storage and transport of your goods.

ONLINE MONITORING // IoT COSMETIC SYSTEM

WebMonitor web application enables any allowed user to bring up on screen measures from Newsteo loggers on any device connected to the internet.

THE RESPECT OF THE TEMPERATURE CHAIN IS YOUR QUALITY PRODUCTS DNA !

LABORATORY temperature and humidity system monitoring

LOG22
